**EARTH'S ANGELS NEEDS YOUR HELP**

The heart's desire of one pastor's wife - to reach out to young women by impacting them before life's challenges have beaten them down - is the driving force behind Earth's Angels. We are blessed to live in the nation's fourth largest and most diverse city, filled with exciting possibilities. However, for many teen girls and young adult women in the greater Houston area, their lives are filled with risk and discouragement.

Earth's Angels has been blessed to have a variety of partners to invest in underwriting the conference and to fund academic scholarships – individuals, churches, organizations and businesses. This community of partners bring encouragement and hope to the participants. However, over the past year, the *tide of funding has reached a low ebb*.

Earth's Angels cannot continue to reach out and help fund the futures of teen girls and young adult women without the support of faithful partners who are willing and able to invest. Therefore, we are extending an important invitation to you: become a Growth Partner with Earth's Angels. Our goal is to mentor and support the continued education and leadership development of young women. Each investment in the life of a young woman is a sound one, and we ask you to join us in this viable mission field. Earth's Angels needs you to partner with us today. The scholarship program is designed to help equip young women with the knowledge and valuable skills that will prepare them for life by enrolling in institutions of higher learning or participating in career training opportunities.

There are many testimonies of young women who have benefited from the financial assistance to further her education. As you join Earth's Angels as a Growth Partner, you will be helping us reach hundreds of young women like Bianca who is now an RN for one of Houston's leading hospitals; or Dr. Estrelita who has started her own counseling practice. But there are many more like Roynesha, Edison and Ariel who have yet to see their dreams and goals fulfilled. Earth's Angels ask for your partnership and you can be assured that we will use your investment wisely to support young women as they grow intellectually, spiritually and socially.

This year, there are two Earth's Angels events that your support would be appreciated. We invite you to attend a *Remember When Tea & Luncheon* on *March 4, 2017* to learn more about the ministry of Earth's Angels; Tables are \$800 (seat 8) and individual tickets are \$50 per person; Guest Speaker is Sheila Klein.

On March 24 & 25, we will embark on our 15th Anniversary Conference. Both events will be hosted at the Hilton Garden Inn Clear Lake; 750 W. Texas Ave., located in Webster, TX.

Your support will make a tremendous impact in the lives of teen girls and young women across the Houston area. Information regarding sponsorship opportunities is included for your consideration. So, make our hearts glad and commit to becoming a Growth Partner or if you need additional information, contact Kathy Burrell, Executive Director today, 281.543.4268; email: [eaconference@internalhope.org](mailto:eaconference@internalhope.org); [www.internalhope.org](http://www.internalhope.org)

*Will you invest in changing the lives of young women – transforming their futures*
